Re: Barefooting and AB Health Codes

Dear Mr. Agapow,

In response to your email, on August 16, 2016, requesting a written statement/letter from Alberta Health Services with respect to footwear requirements in businesses and restaurants, please note the following:

The Alberta Food Regulation and Food Retail and Food Services Code do not contain any regulations or standards with respect to patron attire. Food handlers, however, are required to wear footwear in all food facilities.

Please call if you have any questions or concerns.
